

Grants.gov Proposal Processing in Research.gov

(Updated on July 11, 2023)

National Science Foundation (NSF) proposals submitted via Grants.gov must pass through multiple checks before they are processed in Research.gov. Grants.gov proposals must pass all NSF [pre-check](#) and [post-check validations](#) in order to be accepted by Research.gov at NSF.

When submitting via Grants.gov, NSF strongly recommends applicants initiate proposal submission at least five business days in advance of a deadline to allow adequate time to address NSF compliance errors and resubmissions by 5:00 p.m. submitter's local time on the deadline. Please note, some errors cannot be corrected in Grants.gov. Once a proposal passes pre-checks but fails any post-check, an applicant can only correct and submit their in-progress proposal in Research.gov. There is no grace period for Grants.gov proposals and receiving a Grants.gov Agency Tracking Number does not mean the proposal was successfully [accepted](#) by NSF.

Research.gov Pre-check and Post-check Validations

- **Pre-check Validations:** The list of Grants.gov proposal **pre-check validations** is posted on the NSF.gov [Automated Compliance Checking of NSF Proposals](#) page. Proposal corrections must be made in the source system (Grants.gov or System-to-System) and then **resubmitted in Grants.gov**.

- **Post-check Validations:** The **post-check validations** include the Research.gov automated compliance checks for the full proposal submission type posted on the NSF.gov [Automated Compliance Checking of NSF Proposals](#) page. Proposal corrections must be made in Research.gov and then **resubmitted in Research.gov**.
